

E-CELL ABESEC

From Ideas To Imprint

ABOUT US

The Entrepreneurship Cell (E-CELL) at ABES Engineering College is a dynamic student-driven initiative dedicated to fostering a culture of innovation and entrepreneurship. Our focus is on motivating aspiring entrepreneurs, narrowing the gap from ideas to actual execution, and creating a prospering startup environment within the campus boundaries.

Mission & Vision:

- **Bridge Between Idea & Execution:** Helps students transform ideas into successful enterprises.
- **Non-Profit Institution:** Operates with the primary goal of supporting budding entrepreneurs.
- **Building a Startup Ecosystem:** Provides necessary skills, mentoring, and industry exposure.
- **Future-Ready Entrepreneurs:** Equips students with toolkits and support for startup growth.
- **Strategic Alliances & Noble Initiatives:** Encourages collaborations to scale new ventures

OUR OBJECTIVES

Our E-Cell focuses on fostering innovation and entrepreneurship opportunities and supports startup incubation.

- We cultivate entrepreneurial mindset among students and encourage problem solving skills and innovation.
- We promote students to develop leadership quality and risk taking ability for their proper overall growth.
- We have our USP for our organisation for female students in the form of our inter organisational SHE-CELL where we guide them towards Entrepreneurship and scalability.
- We help students to explore different domains by conducting workshops and sessions to scale overall personality development.

WORDS OF FACULTY MENTOR

" The need to act is clear. Entrepreneurs have the power to create jobs and drive growth – but first we need to give them the tools and the environment that will enable them to succeed."

The demand to become an entrepreneur is already known and widely accepted by society. Especially in developing countries with no population control, it's become urgent to develop and nurture potential Entrepreneurs, Technopreneurs, and Startups.

To ignite young minds and develop an entrepreneurial culture in the Institute and then society, E-CELL plays an important role, where students plan and execute. We run multiple programmes and events to motivate youth and help them consider entrepreneurship as a career option through E-Summits, MeetUps, Workshops, The Entrepreneur Show (TES), and more.

Best wishes!

Mahendra Kumar Gupta
Faculty Mentor, E-CELL ABESEC

KEY EVENT AND INITIATIVE

- **E-Summit:** It was an Event that brought Industrial Entrepreneurs and innovative students together towards a platform of startups and innovations.
- **TES:** The Entrepreneurship Show is a prestigious flagship event of ABESEC that aims to unite a broad audience with interests in a variety of industries.
